Technology Intern

May 2013 - Present

Socrative (socrative.com)

Cambridge, MA

A smart student response system that empowers teachers. Helped to rebuild our platform from the ground up in Django, Backbone, and Phonegap.

Technology / Founding Member

February 2012 – December 2012

Jam+Bread, LLC

Cambridge, MA / New York, NY

Helped create and launch a socially conscious social media and music website with a proprietary patent-pending sharing algorithm and economic model.

IT Security Technician

January - July 2012

Harvard SEAS

Cambridge, MA

Oversaw the auditing of files and document security of multiple Harvard graduate departments, providing suggested courses of action to improve department security.

Pharmacology Intern

June 2010 – September 2010

University of Vermont

Burlington, VT

Worked running labs which observed the effects of different drug compounds upon the brain

Software Developer

November 2011 - Present

Self Employed

Cambridge, MA

I have taught myself objective-C (starting now with Android) and plan to begin releasing my own apps this year. Current projects include a physics game and a location-based social app.

Non-Technical Experience / Achievements

- Winner of Harvard German A Student Award (2012)
- National Kidney Association's Future Achiever Award (2010)
- Harwood Union GSA 'co-refounder'
- Guitarist for award winning Harwood Union Jazz Ensemble
